**Provincial Government Bills**  
***1st Session, 42nd Parliament***

**Bill 2, Urgent Priorities Act, 2018**

**(Minister of Energy, Northern Development and Mines)**

This Bill is essentially three separate pieces of legislation in which the only subject matter in common is that each item is deemed by the current government to be priority legislation. Two of the three 'bills' within Bill 2 are described in more detail below.

**SCHEDULE 1 - Hydro One Accountability Act, 2018**

This Act makes the President and every other officer and director of Hydro One Limited subject to a compensation framework to be established by the Government of Ontario and the other five largest shareholders of Hydro One Limited. The compensation policy must also include severance and other entitlements or restrictions, and will not be effective unless and until approved by the Management Board of Cabinet. The Act also prohibits, on a retroactive basis, any cause of action against the Crown, any current or former member of the Executive Council or employee or agent of or adviser to the Crown, against Hydro One Limited or any of its subsidiaries or officers, directors, employees or agents as a direct or indirect of the enactment of this legislation.

**SCHEDULE 2 -White Pines Wind Project Termination Act, 2018**

This Act immediately cancelled the White Pines Wind Project by revoking all renewable energy approvals associated with the project and any other approval, permit or instrument for the project. It also terminated all contracts and agreements between the project and the IESO. The new Act also extinguished all causes of action by the project proponent for damages for the termination of the contract that exceed the compensation formula established by the Act. The prescribed damages do not appear to cover any anticipated profit margin and it is not clear to what extent any overhead or administration costs would be recoverable.

**SCHEDULE 3 - Back to Class Act (York University), 2018**

- Royal Assent July 25, 2018
