Bill 100, Protecting What Matters Most Act (Budget Measures), 2019

(Minister of Finance)

This is an omnibus bill consisting of more than 170 pages that amends more than 60 separate statutes ranging from the Condominium Act to the Vital Statistics Act. One of the most significant changes, from an OGCA perspective is the proposed repeal of the Proceedings Against the Crown Act, which is the statute that governs any civil claims against the Ontario government, whether based on negligence or breach of contract. This could have far reaching impacts to immunize the Ontario government and government agencies against any liability for its wrongdoings. A hint of the type of consequences of this Bill might be Schedule 2 of Bill 2, which essentially outlawed any claims against the Ontario government for cancellation of the White Pines Wind Farm projects which by some estimates were about 80% complete. Amended statutes include but are not limited to the Employment Standards Act, 2000, the Labour Relations Act, 1995, and the Planning Act.

One of the more controversial changes is allowing some development in the Province's Greenbelt. Another controversial change is the relaxation of drinking water sources protection measures. See the Regulations section of this report regarding impact to the Operating Engineers Regulation.
