### ONTARIO GENERAL CONTRACTORS ASSOCIATION

180 Attwell Drive, Suite 280  
Toronto, ON M9W 6A9  
Phone: (905) 671-3969  
E-mail: [info@ogca.ca](mailto:info@ogca.ca)  
[www.ogca.ca](http://www.ogca.ca)

## OGCA Mission

To be the leading advocate and service provider to our members, fostering an improved general contracting environment.

The OGCA carries out its mission by serving its members in the following key areas:

- **Advocacy:**  
A unified voice and watchdog for our members.
- **Education:**  
Support the development of skills for the future.
- **Contracts:**  
Advocating for fair practices, standard contracts and tendering.
- **Safety:**  
Advocating and supporting excellence in health and safety.
- **Service Excellence:**  
Providing members with support and information required to prosper.

## About the Construction Industry

- Construction is the second largest industry in Ontario employing over 425,000 persons.
- Canada is the 5<sup>th</sup> largest construction market in the world.
- Investment in construction produces a 3.28% multiplier of economic activity.

[www.ogca.ca](http://www.ogca.ca)

The OGCA members are responsible for constructing over 70% of all Industrial, Commercial and Institutional projects in Ontario.

Since 1939, the OGCA has been the Champion of General Contractors in Ontario with a membership of over 200 leading firms from the industry. All AFP building projects as of November 2012, have been built or are currently being built by OGCA members, from Hospitals to the Pan Am projects.

Our members do over \$10 billion dollars of work annually in Ontario. We are the most sought-after bidders in the Province of Ontario.

## Outreach to Owners

The OGCA works with Owners by providing:

- Qualified, competent contractors who have a proven record of being able to handle any nature of work an owner requires.
- An enforceable "Code of Ethics" that all members are required to support.
- Members who set and support a strong standard of professionalism and expectations.
- Action to ensure its members uphold these standards through a complaints and disciplinary policy available to owners.
- Mediation and arbitration references and services to resolve differences between owners and members.
- Free advice and

## Supporting Members by:

- **Ensuring** fairness and transparency of contract and tendering practices.
- **Advocating** for members to government and the industry.
- **Building** positive working relationships with politicians and bureaucrats at all levels of government. Being a strong, voice to effectively address policy decisions, regulations and legislation impacting our industry.
- **Leading** in Health and Safety excellence and training including the establishment of Certificate of Recognition (CoR) as a performance standard.
- **Working** closely with WSIB and IHSA to support, foster and promote safe workplace practices.
- **Advocating** for an affordable and competitive Workers Compensation System.
- **Collaborating** with other construction associations and working with alliances and coalitions to address industry challenges.
- **Championing** careers in construction by encouraging young men and women, aboriginals and new immigrants to select our industry as a career path.
- **Supporting** the CCA Gold Seal Program and **providing** a range of educational opportunities including the OGCA Symposium.
- **Initiating** industry forums and conferences on important issues such as procurement and leadership with health and safety.

review on contracts and projects that can identify issues before they happen.

- Links and access to many other professional associations who can provide assistance to owners.

## **OGCA: ADVOCATE AND ADVISOR**

In 1939, a forward-looking group of General Contractors recognized they could benefit by creating a forum for their common concerns and interests. They organized the Ontario General Contractors Association (OGCA) which today is Canada's premier association of General Contractors who annually contribute more than \$10 billion to Ontario's GDP.

OGCA membership is comprised of General Contractors operating in the Industrial, Commercial, and Institutional sectors. The Association's membership is comprised of hundreds of established general contracting firms ranging in size from small and medium firms to large international companies. The OGCA welcomes both union and open-shop companies as members.

By fostering high standards in construction and safety, the OGCA insists its members adhere to the high standards of its Code of Ethics.

The Association and its members provide a valuable resource for architects, owners, engineers, buyers of construction and other contractors when selecting the best General Contractors in the Province.

General Contractors are listed in alphabetical order with many firms providing additional information in the Company Profile section. The Profile section is specifically designed to help you find a member company that meets or exceeds your needs. A separate section profiles the OGCA's Associate Partners.

The OGCA Directory is distributed to every architectural practice in Ontario, as well as to a select list of construction buyers, and various government ministries. It is the complete reference for sourcing general contractors in Ontario and is also available on line at [www.ogca.ca](http://www.ogca.ca).

We welcome comments and queries. Please contact us at the Association office.

### **ONTARIO GENERAL CONTRACTORS ASSOCIATION**

180 Attwell Drive, Suite 280

Toronto, ON M9W 6A9

[www.ogca.ca](http://www.ogca.ca)

# ASSOCIATION CODE OF ETHICS

The Ontario General Contractors Association is committed to promoting the use of its members as ethical, professional and expert providers of services to the Construction Industry. The OGCA desires to influence the industry and create a business environment where quality, fairness and honesty are integral givens in dealings by its members among themselves and in any business relationship with others.

## The Association Will Endeavour to:

- Cooperate fully with the Infrastructure Health and Safety Association and other allied organizations to promote a strong accident prevention policy, and to eliminate the occurrence of injury and death to construction workers;
- Protect the construction market for the services of general contractors and create an equitable environment for the general contracting industry;
- Maintain high professional standards in the contracting industry;
- Provide methods and means whereby individual members may avail themselves of the power of combined effort through the Association;
- Promote cordial and cooperative relations between general contractors and those with whom they deal or have contact with in the contracting industry;
- Seek correction of injurious, discriminatory or unfair business methods practiced by or against general contractors;
- Promote the use of Standard Construction Documents for contracts and seek to minimize modifications thereto;
- Increase economy and efficiency in the contracting industry; while maintaining high professional standards in the contracting industry;
- Promote ethical practices throughout the construction industry;
- Do all such other things as are incidental or conducive to the attainment of the above.

# UPCOMING EVENTS

## Leadership Day – March 6, 2020

This sell-out event has been drawing larger crowds every year, so we are back at the Verdi Conference Centre on Derry Road in Mississauga. We expect to hear from leaders in safety, as well as government ministers and those who have developed and continue to support a safety culture in their workplaces.

## Upcoming Webinars

Keep your eyes open for the upcoming newsletters where we will be announcing the commencement of some very important webinars, starting in January. Information on the Construction Lien Act, Contracts and Tendering issues and much more will be offered as 90 minute lunch and learn webinars, as well as sessions provided by our Associate Partners.

## OGCA Golf Tournament

Monday, July 6, 2020 – back at Glencairn Golf Course in Milton. This tournament has been a sell-out every year and we continue to add more items to the course for your enjoyment – ice cream, scotch and bourbon, pizza, smoothies and espresso! Watch for the notices in your newsletter.

## 82nd AGM and Conference

October 6-9, 2020 – This year, we are staying local again and holding the AGM and Conference at Langdon Hall in Cambridge. Incoming Chair Joel Melloul has some exciting plans for this event, which happens just around Oktoberfest! Rooms are limited, so watch for the notifications in your newsletter to make sure you don't miss out.

### AEC Developments

675 Queen St S., Suite 111

Kitchener, Ontario

519-904-3050

[www.aecdevelopments.com](http://www.aecdevelopments.com)

[solutions@aecdevelopments.com](mailto:solutions@aecdevelopments.com)

#### Company History:

In 1973, our sister company, WalterFedy, introduced a new project delivery model to Ontario's construction industry. Construction Management was an innovative approach designed to integrate the owner, designer and constructor into a construction project. This new approach to construction was met with great success and over the course of 45 years, WalterFedy completed an impressive portfolio of project in commercial, industrial and institutional sectors.

#### Management:

Mike Reid, President

David Petrie, Director

#### Principal Fields of Activity:

Industrial, Commercial, Institutional, Design/Build, Construction Management, General Contracting, Project Managers, Pre-engineered Buildings, Additions & Renovations, Health Care.

#### Services Provided:

Construction Management, Design-Build, Stipulated Sum, Cost Plus, Total Project Delivery, Project Cost Monitoring/Owner Advocate, Design-Build RFP Development, Project Management, Cost Consulting & Planning, Schedule Management.

# Alberici Constructors

AN ALBERICI ENTERPRISE

**Alberici Constructors, Ltd.**  
1005 Skyview Drive, Suite 300  
Burlington, Ontario L7P 5B1  
Phone: 905.315.3000  
Fax: 905.315.3001  
[www.alberici.com](http://www.alberici.com)

## Company History:

Alberici Constructors, Ltd., based in Burlington, Ontario, operates across North America as part of Alberici Corporation. Alberici is a general contractor specializing in the industrial process, power, civil, water/wastewater and automotive markets. The firm's history dates back to 1908 when it began as W.H. Yates Construction. After being purchased in 1951, the firm became known as Robertson-Yates Corporation Limited (RYCO). In the early 1990s, RYCO and J.S. Alberici Construction Company formed a joint venture to construct automotive projects throughout Ontario. RYCO became a subsidiary of Alberici in 1997, and Alberici Constructors, Ltd. was formed.

### **Company History:**

For over 100 years, T.A. Andre has provided quality general contracting services across Eastern Ontario.

### **Management:**

Rod Pollock	President
Michael Pollock	Vice President
Tim Hart	Estimator
Ben Young	Project Manager

### **Construction Services:**

T.A. Andre is focused on the long term relationships with owners, consultants, subcontractors and suppliers. We are in business to support our clients reach their construction goals with our management insight and years of field experience. We work with our clients to find proper long term solutions.

ICI Projects to \$20,000,000

- Industrial and Institutional renovations and new build
- Concrete rehabilitation
- Shutdown and emergency work
- Scaffolding work
- Behlan pre-engineered building dealer

Our competitive advantage stems from an established management team, a significant scaffolding and formwork inventory and a field team of long term employees who self-perform many aspects of work.

### **Typical Projects:**

#### Industrial:

New industrial plants, expansions and renovations.  
Restoration of dams and fossil fuel generation facilities.  
Solar and windfarm installations.  
Scaffolding and shutdown repair work for manufacturing companies.  
New concrete and concrete remediation.

#### Municipal:

Renovation and additions to sewage treatment plants, pumping stations, outdoor skating rinks, parking garages.

#### Institutional:

(Academic)  
New construction, additional buildings and major renovations at Universities, Colleges, Public Schools and Hospitals.

#### Historical:

Major building renovations to historical buildings.

#### Emergency Repairs:

Fast response repairs due to structural failures, fire damage and winter conditions.

#### Custom Scaffolding, Winter Protection and Formwork:

T.A. Andre specializes in the supply and install of scaffolding, winter protection (including ground heaters) and customized formwork.

### **Safety:**

T.A. Andre is committed to safety and quality workmanship in every project undertaken. One of the founding members of the first OGCA Safety Group, and is currently participating in the IHSA COR Program.

# basekämp

**Company History:**

Basekämp Construction Corp. has been providing construction services for over 10 years and is a wholly-owned Canadian construction firm comprised of an experienced team of construction specialists. Basekämp has successfully executed a broad base of diverse institutional and commercial projects, whether in a general contractor or construction management role, or a specialty contractor using its own forces to complete work. Our contracted work is typically completed under various delivery models such as stipulated lump sum, unit price or special design-build joint partnerships. Basekämp has established itself in the construction industry with a first-rate reputation by building trust through reliable performance, while continuing to strengthen its operational capabilities.

# EASTERN

CONSTRUCTION EST. 1951

Eastern Construction Company Limited

**Toronto Office:**

2075 Kennedy Road, Suite 1200  
Toronto, ON M1T 3V3  
Phone: 416-497-7110  
Fax: 416-497-7241  
Web: [www.easternconstruction.com](http://www.easternconstruction.com)

**Company History:**

Eastern Construction Company Limited is an employee-owned Canadian Company, which began operations in 1951. With nearly 70-years experience behind us, we have constructed industrial, commercial, institutional and residential projects across Canada. The values of these projects vary from hundreds of thousands of dollars to more than \$350 million.

**Management Team:**

Frank DeCaria	Chairman
Bryan Arnold	President and Chief Executive Officer
Renato Tacconelli	Vice President
Jim Broomfield	Vice President, Operations
Michael Suljak	Vice President, Strategic Development
Martin Kibble	Vice President, Finance
Dean Walker	Director, Design-Build
Steve Gray	Director, Operations
Heather Anne Popovich	Manager, Project Coordination
Andy Pabla	Manager, Risk Management

**Services Provided:**

Over the years, approximately 75% of Eastern's volume has been through negotiated contracts, much of it with many repeat customers, thereby confirming their confidence in our ability to successfully deliver all their construction needs. The balance of our volume comes from the competitive tendering process. Today's construction market employs different approaches to achieve successful project delivery. For over sixty years, Eastern Construction has developed the skills, techniques, methods and expertise in all types of project delivery, such as general contracting, construction management and design build.

**Safety & Education:**

Eastern Construction has maintained an outstanding safety record and has one of the most comprehensive safety programs in the industry. We play an active role in the management of the IHSA and participate in many of their committees. Our employees are our most important resource. We support our staff with in-house educational programs and promote all Gold Seal initiatives.

**Typical Projects:**

Halton Regional Police Headquarters  
Toronto Transit Commission, McNicoll Bus Garage Design-Build  
City of Toronto, Bessarion Community Centre

**Company History:**

GHD and Conestoga Rovers & Associates (CRA) merged on July 1, 2014 to establish one of the world's leading professional services companies providing engineering, architectural, environmental and construction services. This union formed a connected global network of over 8,500 employees with 4,000 in North America.

Providing services to our clients for over 30 years, GHD has grown to become one of the world's most sought after solution-providers. GHD is a full-service engineering, environmental consulting, construction and IT Services firm, dedicated to corporate responsibility, corporate accountability, technical excellence, and a commitment to consistent, superior services with offices throughout Ontario.

Originally formed in 1995 under the CRA Contractors Limited name, we continue to offer a high service level to our clients under our new name GHD Contractors Limited (GHDCL). We are positioned to provide design/build services to our clients.

**Management:**

Bruce Monteith	Vice President and Manager of Construction Services
Dave Chambers	Vice President and Manager of Design/Build Services
George Godin	Vice President and Manager of Water and Wastewater Services
Ryan Shepherd	Vice President and Manager of Emergency Response Services
Mark Molinary	Vice President and Manager of Environmental Services

**Principal Fields of Activity:**

Environmental, energy, wastewater treatment, municipal, plant services, industrial remediation, air quality and emergency response services

**Services Provided:**

Phone: 519 609-0172  
Fax: 416 486-6778

The successful delivery of capital projects continues to elude some of the most sophisticated clients. Products, materials and systems are increasing in complexity. Availability of skilled and experienced resources is dwindling. The pace of business and construction is being pushed to the limits. More and more is being expected from our projects.

Welcome to Gillam – a progressive construction management organization that was established with a view to raising the bar in the planning, management and delivery of construction projects. Formed by senior industry professionals with enviable track records gained in the local market, Gillam Group Inc. is based in two office locations in Ontario, and offers a broad range of services focusing on the built environment. Our motto is Plan | Perform | Inspire

#### Management:

Marcus Gillam, CEO  
Craig Lesurf, President  
Domenic Lambo, Vice President Estimating  
Kevin Farrow, Vice President Operations

#### Typical Projects:

Institutional/educational, healthcare, laboratories, courthouses, LEED, industrial/manufacturing, hotels/hospitality, retail, theatres, sport facilities and office/interior renovations. Gillam specializes in complex projects including fast-track schedules, challenging logistics and occupied premises.

#### Services Provided:

Construction Management  
Design-Build  
Integrated Project Delivery (IPD)  
General Contracting  
Alternate Financing & Procurement

#### Residential:

With numerous multi-residential projects in the pipeline, Gillam has opened its new division, Gillam Urban, with the goal to build in an effective construction management delivery.

#### Safety:

Gillam Group was the recipient of the OGCA Safety Award in each of the past seven years for zero lost-time injuries, and recently achieved 1 million plus manhours with NO Lost Time Injuries.

#### Clientele:

York University  
Haven Developments

# GRAHAM

Graham Construction and Engineering, 6108 Edwards Blvd., Mississauga, ON L5T 2V7  
Tel: 905.694.4000 Fax: 905.694.4200 Website: [grahambuilds.com](http://grahambuilds.com)

## Company History:

From the beginning, Graham was built on values and a vision. With a steadfast belief in commitment, integrity and reliability, we've grown steadily to be one of the leading, fully-integrated construction companies in North America. We've had a long track record of success since starting out in 1926 building railway stations for the Canadian Pacific Railway in Moose Jaw, Saskatchewan. Our growth in capability has been matched by our expansion across the continent. Today, we are an employee owned company with headquarters in Calgary and operate out of 13 offices throughout North America. With over 1,600 employees and annual revenues exceeding \$2 billion, we are proud to have maintained our culture of caring since our inception.

## Management (Toronto Office):

- Andrew Hill, District Manager
- Robert Rabie, VP Construction
- Reynder Van der Meulen, Project Director
- Art Winslow, Business Development Manager
- Stephane Gagnon, Chief Estimator

## Principal Fields of Activity:

Buildings, Industrial, Infrastructure/Civil Construction

## Services Provided:

Integrated Project Delivery, Construction Management, General Contracting, Design Build, Public/Private Partnership

## Safety and Education:

As a leading North American construction solutions partner, Graham places the health and safety of its people and business partners, along with the protection of communities and the environment, above all else. We've developed a comprehensive Health, Safety and Environment Management System (HSE MS) which is embedded into everything we do. The HSE MS has been built by our Leaders who understand and are committed to the health and safety of our entire operation. This system provides a framework for excellence at all levels, providing clear management expectations, detailing employee responsibilities and serving as a mechanism for continuous improvement. Graham is COR Certified.

## Education:

Graham offers a wide variety of on-going learning opportunities for its employees:

- Career planning services
- In-house (custom) training programs
- Online training programs
- Mentoring program

## Typical Projects:

- Feihe – Canada Royal Milk Plant
- Ashbridges Bay Wastewater Treatment Plant
- South East Community Centre Project (Integrated Project Delivery)
- Kitchener Waste Water Treatment Plant Project
- Metro Distribution Centre – The West Mall
- RER Davenport Diamond Grade Separation

### INGENUITY DEVELOPMENT INC.

3800A Laird Road, Unit 1, Mississauga, ON L5L 0B2 [www.ingenuity.ca](http://www.ingenuity.ca)

#### Company History:

Since first opening its doors in 2007, Ingenuity has earned a reputation for integrity, quality construction, customer service and attention to detail. Our rapid growth from a small builder into a respected, mid-sized construction company is a reflection of the strong relationships we have forged over the years and our personalized approach to client service.

We are proud that much of our business continues to come from repeat customers and client referrals. Regardless of the size or nature of each construction project, Ingenuity is committed to delivering a superior client outcome. The Ingenuity team takes a long-term view – it's about doing it right, from the start and making sure that our clients are taken care of throughout the project.

#### Management:

Mario Viti	Chief Executive Officer
Matthew Bucci	Chief of Construction Operations
Peter Viti	Chief Operating Officer

#### Principal Fields of Activity:

Industrial	Commercial
Institutional	Corporate Interiors
Construction Management	

#### Services Provided:

General Contracting  
Design/Build  
Construction Management

#### Safety and Education:

When it comes to safety, we have one rule: Make sure every single person who works with us or for us returns home safely every day.

That means everyone, from field personnel to our executive leadership team, is charged with promoting, ensuring, and driving a culture of safety.

- Ingenuity's Health and Safety standards continue to be above government requirements in our industry.
- All Ingenuity Site Superintendents are extensively trained throughout the year on relevant construction Health & Safety practices.
- Every Ingenuity operations employee receives a minimum of 10 hours annually in Health and Safety training.
- Every person who walks on our construction sites must complete our site orientation.
- We seek out and prequalify subcontractors with exceptional safety ratings.
- We have a zero-tolerance policy for unsafe practices.

#### Typical Projects:

**MMC/SSW** - Corporate Interior in commercial business park - 38,000 sq. ft. - Design/Build, Oakville, ON

## Integrated Building & Design Corporation

We are a privately owned general contracting company and have experienced a sound and steady growth through the complete involvement of our personnel.

IBD Corporation is committed to:

- the highest standard of quality and ethical values
- satisfaction of our clients utilizing the best innovations and systems
- providing a safe and healthy working environment
- environmental responsibility
- our employees sharing in our growth and success

Getting the most from design in our global, networked economy is increasingly dependent on the ability to intelligently integrate a broad range of diverse factors. IBD Corporation offers a range of special services that complement traditional design. We continue to evolve these services as part of our ongoing commitment to provide innovation, insightful guidance, and convenient, integrated service.

Once secured an opportunity to provide our services, the assigned group team will pursue excellence, through dedication and commitment. Our primary concern is to maximize client satisfaction, as we deem it to be the lifeblood of our business.

**Company History:**

Most successful Canadian companies have a storied history describing the journey from their early beginnings to where they are today. Hard working immigrants armed with skills, work ethic and a relentless drive to succeed are part of many of these histories.

Such is the story of Manshield Construction; with over 40 years creating some of the most impressive buildings in Western Canada, this little company that could kept growing into a formidable force on the construction landscape.

Manshield has earned a reputation for being an accomplished General Contractor for private and public sector Clients. Although our roots are firmly in Manitoba, Manshield has a proven track record in Northwestern Ontario, Alberta and British Columbia.

The construction industry has changed. The demand for new technology, specialized training and innovation has never been more important. The need to adapt and compete on a national scale has led to exciting changes. Manshield's recruitment strategies have adapted transformed or advanced to engage hire keen, young talent and the entire organization has modernized, embraced technology and developed new processes based on our experiences of the past. Rather than following trends, Manshield is leading the way to better suit the needs of our Clients.

In keeping with the progress of our company, we have updated our name and identity.

**Our new name is M Builds.**

**Management:**

Peter Belluz, P. Eng, CEO President and Managing Partner;  
Robert Ferraro, Managing Partner, Manitoba;  
Tony Nocita, M. Arch., Managing Partner Special Projects, Manitoba;  
Tony Ferraro, Managing Partner, B & F Masonry Canada;  
Tony Eismendi, Managing Partner, Gibraltar Concrete Canada Ltd.;  
Kevin Juby, Managing Partner, Alberta;  
Peter Schwind, Managing Partner, Alberta.

**Principal Fields of Activity:**

Offering complete build development, design and construction services, M Builds is able to supply project, construction and design-build management, general contracting, stonework, masonry, concrete and concrete restoration services, and land development services, either singularly or collectively, based on client requirements. We focus our efforts largely in the ICI (industrial, commercial, institutional) sectors.

**Services Provided:**

General Contracting, Construction Management, Design Build, Project Management and Land Development.

**Safety & Education:**

Safety is an investment that provides real benefits in a high hazard industry like construction. M Builds is a member in good standing with the Construction Association COR Safety Certified Program since 2002, in Manitoba, and has enrolled in the COR certification program in Ontario. M Builds construction knows projects start well before the ground is broken and understands that Safety should be part of the process right from the very beginning. M Builds also knows that once a project starts, safety should be part of every employee's job, every day. M Builds conducts across-the-board job site safety training, awareness and audits with subcontractors and our own forces by continuously and routinely enquiring into the company's safety history, practices, and training programs.

**M Builds Strengths:**

M Builds has been offering complete construction services in Western Canada since the 1970s. This history has allowed us to gain considerable financial strength. M Builds has excellent relationships with our bonding, insurance, and banking partners, and we currently have capacity to perform \$200 million of annual volume. M Builds has gained the respect of local owners, consultants and subcontractors. Subcontractors want to work with us as M Builds projects are well-known to be accurately organized and scheduled and the subcontractors are paid in a timely manner. Subcontractors know that there is no time wasted on a M Builds project. M Builds has cultivated an attitude that is contrary to the adversarial climate so common in the construction industry, our background in design and building has fosters a business philosophy that focuses on teamwork, customer service, cultivating relationships and building mutual trust. We are a partner in the process – providing leadership and delivering superior construction processes.

# Maple Reinders

## Maple Reinders Group

2660 Argentia Road, Mississauga, ON L5N 5V4

marketing@kiwinewton.com

www.kiwinewton.com

#### **Company History**

Since 1994, Newton Group Ltd. has operated as a general contractor, completing conventional ICI construction. Since then, the firm has diversified to include the following divisions:

- Newton Parking Structures (prefabricated and engineered parking structure system)
- Kiwi Newton Construction/Kiwi Condo (ICI building projects. Energy efficient and prefabricated building system for multi-unit residential, industrial, commercial and more)
- Newton Bridge Solutions (prefabricated concrete bridge systems)
- Newton Solar (design, installation and maintenance of EPC solar projects)

As a premier general contractor specializing in Design+Prefab+Build construction methods, Newton Group Ltd. believes in advancing construction techniques with technology and innovation while maintaining a high degree of integrity in all of their projects.

#### **Management:**

Edwin (Ed) Newton	President
Meri Shepherd	Vice President
Michelle Blythe	Controller
Jeremiah Vanderlaan	Manager of Business Development

#### **Principal Fields of Activity:**

Newton Group Ltd.'s various divisions cater to a wide range of projects; from conventional Industrial, Commercial, Institutional (ICI) construction to innovative parking structures, prefabricated residential and mixed-use buildings, precast concrete bridges and solar power design and installations.

#### **Services Provided:**

General Contracting, Design-Build, Prefabricated and Modular Construction, Integrated Design and Delivery, Sustainable Buildings

In addition, Newton Group Ltd. manufactures and constructs Building Systems for Energy Efficient and/or Net-Zero Buildings, Parking Structures and Bridges. Their construction method begins with engineered, prefabricated system components that boasts a high-quality product which can be tailored to meet individual client requirements. Involvement with a project can begin at any stage: Site Identification & Acquisition, Concept Design, Estimating & Lifecycle Costing, Design Development & Detail Design, all the way through to Prefabrication & Construction.

As a vertically integrated General Contractor, Newton Group Ltd.'s vision is to provide clients with a 'one-source' solution for all of their construction projects.

#### **Safety & Education:**

Safety is a priority among all staff members which enables the company to attain an excellent safety record and receive distinguished achievements in Health and Safety. Newton Group is a Member of the League of Champions Safety and IHSA. Newton Group Ltd. is committed to continuous training and education through internal mentorship, on site training and programs such as Canadian Construction Association Gold Seal.

## ONE OAK CONSTRUCTION

### ONE OAK CONSTRUCTION

6625 Kitimat Road, Unit 46  
Mississauga, Ontario L5N 6J1

Tel: 416-598-1625

Email: [Rahul@one-oak.ca](mailto:Rahul@one-oak.ca) Website: [www.one-oak.ca](http://www.one-oak.ca)

#### Company Profile:

One Oak Construction is a licensed, insured and bonded general contractor that specializes in residential and restaurant remodels, renovations and facility management. Being accredited in good standing with the Better Business Bureau and a member of the TCA, One Oak takes pride in providing client services all throughout southwest Ontario, from the GTA to Windsor and Sudbury. With our collective wide range of experience and quality of work, we aim to provide accountability, quality and service.

#### Management:

Rahul Faria – Owner, President

We value the importance of relationships and will continue to strive at creating successful partnerships with our team, clients, suppliers and subcontractors throughout the construction process.

To deliver cost-effective, high quality projects on schedule with a team that is motivated, driven and focused.

Our goal is to establish lasting relationships with our clients by exceeding their expectations and gaining their trust through exceptional performance by every member of our construction team by adhering to our 4 Cs.

- Collaboration
- Clarity
- Communication
- Craftsmanship

#### Services Provided:

One Oak Construction specializes in the construction of commercial, retail and institutional sectors of the industry. Providing service specifically in the Greater Toronto Area and vicinity. For our residential clients, our easy to follow 5 step process, the *Stress-Free Reno Solution™*, was created to help educate our right-fit residential clients on the process of a renovation.

#### Safety & Education:

One Oak Construction is committed to providing a healthy and safe environment for all their employees, clients, suppliers and subcontractors. Our team strives to accomplish the best safety record by providing our employees continuous education programs as required by the OH&S Act. We strive to continue to develop and exceed industry best practices.

#### Partnerships Built

One Oak is proud of the successful partnerships we have built with our clients.

**To Last** Many of our clients are repeat customers as they value our services and would not hesitate to provide referrals. Below are a number of our clients and partners:

Red Lobster  
Domino's Pizza  
Arain Jewellers

### **GENERAL CONTRACTORS**

#### **PRAZTEK CONSTRUCTION**

834 Mountjoy Street South  
PO Box 1125  
Timmins, P4N 7J3  
p. 705.264.7729  
f. 705.268.8165  
praztek@persona.ca

#### **COMPANY PROFILE:**

Praztek Construction and 2330104 Ontario Inc. are both licensed, incorporated companies established by Pete Beaucage Jr. For nearly 50 years, the Beaucage name in construction has stood for quality workmanship, reliability and integrity. Since 2003, Praztek Construction has built over \$100 million dollars' worth of projects across the province to date and this figure continues to grow.

#### **MANAGEMENT:**

Praztek Construction is comprised of highly qualified and certified professionals who together represent nearly 100 years of construction experience. Praztek Construction was established by Pete Beaucage Jr., who has spent the past 15 years handpicking and developing his team of Estimators, Project Coordinators, Project Managers, Site Supervisors, Property Managers, Property Supervisors, and Property Maintenance Staff. The Praztek team brings to every project a wealth of experience and is highly qualified in construction and technical design.

#### **PRINCIPAL FIELD OF ACTIVITY:**

Praztek Construction specializes in large Commercial and Industrial Projects. Our Company continues to grow as we expand to include: Design-Build Projects, Real Estate Developments, Property Management, Property Maintenance, Public Private Partnership Agreements, and Property Investment throughout Ontario. Praztek Construction has been serving the North for the past 15 years and has assisted in the development of the infrastructure that is vital for these Northern communities to thrive! We have worked on an extensive number of projects that range in scale, complexity and value. We work in collaboration with various architects, engineers, designers and technicians. Our team also has extensive experience dealing with regulatory agencies, public interest groups, government agencies, health and safety issues, public concerns and awareness, budget constraints and providing quality control management and innovative and cost-effective solutions; all while understanding and meeting the needs of our clients throughout the project lifecycle!

#### **SERVICES PROVIDED**

We specialize in: General Contracting, Construction Management, Project Management, Design Build Services; Finance/Leasebacks/Maintenance, Real Estate Developments, Estimating/Budgeting, Commercial Leasehold, Public Private Partnership Agreements, Property Investments, Complete Mechanical Division, Assistance with Real Estate severance/Rezoning/Planning.

#### **SAFETY AND EDUCATION:**

Praztek Construction believes in continuous education and ensures that every staff member, in every area of the business, possesses the skills and knowledge required for every project. Praztek Construction has received countless awards and acknowledgements for our focus on Health and Safety and our track record of "Zero Injury Frequency" for several years!

Tel. (905) 734-6810

Fax (905) 734-3179

[www.serianniconstruction.com](http://www.serianniconstruction.com)

**Company History:**

Incorporated in 1992, Serianni Construction is built on a solid foundation that dates back to 1958, when our father, Basil Serianni, a Master Cabinetmaker, came to Canada and embarked on a lifetime of quality craftsmanship that continues to this day.

What began in the early '60s as sole proprietorship based mainly on custom residential work has grown into a full-fledged, family-run corporation that provides general contracting, pre-construction, construction management and design/build for major corporate, industrial, commercial, institutional, municipal, residential and multi-residential clients in Niagara and beyond.

Our philosophy is simple: provide premium-quality construction at competitive rates, while maintaining absolute personal commitment and involvement with our clients, and with the design and consulting professions. It's a way of doing business that has served us well, and resulted in a strong reputation for quality, effectiveness and efficiency. Our long list of satisfied customers continues to grow, and now reaches far beyond our local base, and throughout Ontario.

**Management:**

Mario Serianni, CET, P.Q.S.  
Ross Serianni, BA, CHRP

President  
Vice-President

**Services Provided:**

Serianni Construction Ltd. provides Pre-Construction, Construction Management, General Contracting and Design Build services in the Industrial, Institutional, Commercial, Municipal, Hospitality, and Multi-Residential sectors throughout the province of Ontario. From project planning through to project close-out, we supply a team of talented and experienced professionals assembled from the best in the business. Our goal is to ensure a smooth professional workflow, keeping you informed at all times of every aspect of the project.

**Safety & Education:**

Serianni Construction Ltd. is proud of its long history of maintaining zero lost time accident frequency rates. Our employees believe that maintaining a safe, clean working environment is an essential factor in achieving high quality, cost control and accurate scheduling. Serianni Construction Ltd. is a proud recipient of the OGCIA Distinguished Achievement in Health and Safety Award.

## **Somerville Construction Consulting & Project Management**

15 Gervais Drive, Unit 503  
Toronto, ON M3C 1Y8

Tel: 416-484-0043 Fax: 416-484-1894

Email: [info@somervillecc.ca](mailto:info@somervillecc.ca)

[www.somervillecc.ca](http://www.somervillecc.ca)

### **Company History:**

Somerville Construction, Consulting & Project Management is a well-established, privately owned Toronto based firm with 30 years of experience in a broad range of construction, development and consulting projects across the Greater Toronto Area and southern Ontario. We are recognized leaders in constructing and managing unique projects and providing "real-world" solutions for our clients. In the construction industry, we are regarded as a "niche" contractor due to our propensity to become involved in unusual, one of a kind, high profile projects. Our consulting practice has built its success on fostering close relationships with our clients and by offering a "hands on" project management approach. Our boutique business style and company structure enables our team to submerge themselves in all aspects of each project and to become proficient in the many services we offer our clients.

Our experience and commitment to excellence help us bridge the gap between a project's vision & design and its successful completion.

### **Management:**

Alexia MacLeod	President
David MacLeod	General Manager
Sherry Jackson	Office Manager/Accounts Manager
Tony Vizzini	Sr. Project Manager, Site Super, GSC

### **Principal Fields of Activity:**

General Construction, Institutional, Commercial, Industrial, Recreational, including hard & soft landscape projects

### **Services Provided:**

General Contracting, Design-Build, Construction and Project Management

### **Safety & Education:**

Member of OGCA Safety Group

Somerville Construction has been building quality projects and has maintained an excellent safety record for many years. We follow with strict compliance the current version of the Occupational Health and Safety Act and Regulations for Construction Projects.

### **Typical Projects:**

Berczy Park, HTO Park, Simcoe/Rees Wavedecks, Dundas Square, Eva's Phoenix Youth Shelter, Canada Square Harbourfront Centre

# STAHL

## CONSTRUCTION INC.

85 Edwin Street, Kitchener, ON N2H 4N7 (519) 576-5800 Fax (519) 576-5861

**Company History:** Wayne Stahle General Contractors Ltd., has operated throughout Southern Ontario since 1960. Stahle Construction Inc., purchased the construction assets in 1997 and continues the general contracting business throughout Canada.

**Management:** John Preston President (jpreston@stahlecon.com)

**Principal Fields of Activity:** Stahle Construction Inc. is a medium size Project/Construction Management/General contractor involved in all phases of commercial and industrial projects. Restaurants, banks, retail and school work, have been our focus in the past decades. In the past dozen years, we have operated in all provinces performing work for our selected client base. Current and future directions will involve more land development, and a focus on developing our client base across Canada.

**Services Provided:** Design-Build, Construction Management, Project Management, General Contracting and Service work. Modular building design, manufacturing and construction. Bank and restaurant service and retail work throughout Canada.

**Locations:** Head Office – Kitchener, Ontario

**Safety & Education:** As a member of WSIB/OGCA Safety Group, Stahle Construction is strongly committed to a safe working environment on all of our projects. Our President holds four Gold Seal Certificates and is a strong believer in the education of our employees. Five of our employees have been able to achieve Gold Seal Certificates, while being employed at Stahle.

**Typical Projects:** Modular building – restaurant replacement buildings – across Canada.

Telephone: 705-256-6201 – Facsimile: 705-256-6478

Email: info.stone.sons@shawbiz.ca

## **Company History:**

Established in 1915, George Stone & Sons Inc. is managed with the same values as its originator – honesty, quality, integrity. For those reasons, we are often sought as prime or joint venture contractors for Northern Ontario projects by clients and contractors throughout Ontario.

## **Management:**

Rod Stone	President
Randy Stone	Vice President
April Foster	Secretary/Treasurer
Michele Nadon	Office Manager

## **Principal Fields of Activity:**

Northern Ontario's sparse construction markets do not permit survival as a specialized contractor – and so we do it all: Industrial, Commercial and Institutional Construction – Additions and Renovations – Sewage and Water Plants, Heavy Civil – Pre-engineered Buildings – Concrete Work, Saw Cutting & Core Drilling, Concrete Demolition

## **Services Provided:**

Complete General Contracting, Design-Build, and Construction Management for conventional and other buildings. George Stone & Sons Inc. also partners with contractors providing concrete foundations, finish carpentry, supervision and administration.

## **Safety & Education:**

Our goal has always been, and continues to be, providing all staff and associated personnel with a safe and healthy working environment.

We are Stuart Olson, a \$1.3 billion fully integrated construction services provider serving clients since 1911. Stuart Olson's integrated solutions redefine the potential for success, lower the total cost of engagement, and provide the peace of mind our clients have come to expect. We work using a dynamic process allowing for flexibility and adaptability, with a focus on achieving results and nurturing relationships.

We have played a central role in the construction of some of the most technologically advanced health care facilities across North America. Our integrated approach utilizes the expertise of the entire project team enhanced by collaboration with frontline health care professionals. Additionally, we are leaders in the educational sector and we have helped shape various academic campuses. We have constructed post-secondary projects for over 24 institutions with over 1.2 million square feet of research and lab facilities. Furthermore, we have completed many LEED certified projects, including LEED Platinum certified projects.

Our model for success is simple, yet powerful in its application—an approach to doing business grounded in respect, transparency and collaboration. We are an organization of over 4200 people, motivated by the opportunity to make a difference. We are People Creating Progress.

## Triple Crown Enterprises

*Safe, dependable construction since 1994*

665 Parkdale Ave. N., Hamilton, ON L8H 5Z1  
T 905 540 1630 | F 905 540 1612 | [www.tceont.com](http://www.tceont.com)

### Company Overview

Triple Crown Enterprises (TCE) has been delivering on the promise of safe, dependable construction services for over 25 years. We take pride in the repeat business we get from our clients, as it is the best indication we have completed a project to their satisfaction.

TCE is a general contractor based in Hamilton, Ontario offering construction, project management, design-build, and facility maintenance services to our Industrial, Commercial, and Institutional customers. We have built our business on the time-honoured values of our President: Integrity, Respect, Safety, and Reliability.

We have the ability to self-perform civil, structural and electrical installation and general construction works, as well as custom metal fabrication. Each of these groups also regularly act as sub-contractors to other general contractors.

We bring innovative solutions to our clients by using the latest construction technologies and methods, employing skilled, experienced staff with hundreds of successful projects under their belts, and by approaching each project with a focus to maintain safety and reduce schedule and cost while delivering on quality.

We are committed to maintaining a safe workplace for our staff, our sub-contractors, and our clients. We promote the best practices of Environment, Health and Safety throughout project planning and execution with appropriate safety systems and ongoing training.

### Civil Group

Our civil group specializes in executing complicated foundations and concrete work in challenging environments. We can work around operating facilities, during outages and shut-downs, and can perform complete maintenance turnarounds for industrial clients. We also support institutional and commercial projects such as building repairs, retrofits, upgrades, and renovations.

### Electrical Group

Working in difficult environments under critical time constraints with delicate equipment takes great ability and a steady hand. TCE electrical has maintained a solid reputation as being amongst the industry's finest in the electrical contracting field. From a small office renovation to the integration of major process equipment to plant wide distribution and lighting upgrades, TCE electrical has developed a solid core group of experienced staff able to tackle most electrical projects.

### Metal Fabrication

Our metal and iron work specialists have extensive experience designing, building, and erecting custom steel fabrications of all sizes and specifications. We work with a wide variety of materials including carbon steel, stainless steel, aluminum, abrasive resistant steel, and more.

With our spacious, 37,000 square foot fabrication facility, entire projects can be completed in one location using our machines and equipment to cut, fit, weld, form, machine, assemble, and paint.

For more information, please refer to [www.tceont.com](http://www.tceont.com) or call us at 905 540 1630.

#### Current Major Pursuits:

- University of Toronto Mississauga New Science Building
- York University Markham Centre Campus Phase 1

#### Safety & Education:

Safety is Walsh Canada's top priority. We continually strive to "raise the bar" for safety and our staff are involved in advancing numerous industry safety initiatives. Our objective of achieving safety excellence relies on a simple approach and message; "No One Gets Hurt." Walsh is a proud recipient of the OGCA's *Distinguished Achievement in Health and Safety* award for zero frequency for the past 7 consecutive years. We are also recipient of the 2018 Silver Awards in both the Building & Construction and Young Worker Safety categories from Canadian Occupational Safety Magazine's Canada's Safest Employer Awards.

Walsh also has a vested interest in the community where our staff regularly participate in outreach initiatives and fundraisers. We are also actively involved in industry associations and post-secondary institutions that include George Brown College, CanBIM, and CAWIC to help shape the future of the industry and advance the education of the next generation of construction professionals.

Website: [www.alliancecreative.ca](http://www.alliancecreative.ca)

Alliance Creative Marketing is located in Markham, Ontario, Canada.

Liza Tam and her team have over 25 years of experience in promotional gifts and apparel.

## **Why Alliance Creative Marketing:**

We provide full service to customers: this includes an experienced promotional product expert who will work with you personally on your request and select the right products for your events.

Our graphic designer provides logo prep and design help on every item we sell – you don't need to do the work yourself – we'll do it for you!

Whether you'd just like your logo on a product, or you'd like to add text, additional graphics or you need a complete logo created – we'll do the work, FREE! And you'll always get a FREE 'e-proof' or pre-production sample before we proceed with your order!

You will receive personal, expert service on every order. We bring the products to your office for your review and selection. Thus you know exactly the materials and quality of them. At the same time, you could decide where to put your logo. There is no surprise when the products are delivered.

We offer custom, creative gifts and apparel with competitive prices. With a strong network of factories located in Canada and overseas, we constantly develop products that cater toward the daily needs of our customers.

Whether you are looking for a specific item or just browsing for ideas, visit our website at [www.alliancecreative.ca](http://www.alliancecreative.ca) or email us for our latest catalog.

[www.benefitpartners.com](http://www.benefitpartners.com)  
[info@benefitpartners.com](mailto:info@benefitpartners.com)

## Company History:

Benefit Partners has been providing a variety of consulting services to large private and public sector organizations and individuals for over 25 years. Through our various client mandates, we have developed a sound understanding of the types of services that are required by our clients and have successfully developed programs that have satisfied all the challenges with which we have been presented.

## Management:

Dan Millar – Principal, Lead Benefits Consultant  
Vic Skot, FCPA, FCA – Principal, Lead Benefits Consultant  
Peter DiPietrantonio – Principal, Lead Pension Consultant

## Principal Fields of Activity:

Benefit Partners is an Ontario based multi-disciplinary employee benefits, pension and human resources consulting firm. Our consultants work with over 300 public and private sector organizations ranging from 5 to 5,000 employees, with an additional several hundred individual clients. We assist in the design, implementation, and in some instances the administration of various types of employee benefit programs, pension programs and personal financial plans. We adopt a team approach to each client's mandate in order to ensure the maximum application of the required resources and the continuity of client service at all times. We are capable of providing service in both official languages.

## Services Provided:

**Group Benefit Consulting:** Benefit Plan Design, Provider Selection, Predictive Modeling, Association Programs, Health/Wellness/Drug Benefit Programs, Financial Analysis, Multinational Pooling Arrangements.

**Pension Plan, Group RRSP and DPSP Consulting:** Retirement Plan Design, Plan Governance, Communication, Member Services.

**Wealth Management, Financial Planning:** Retirement Transition, Tax Planning, Investments, Insurance Planning (for individuals and businesses), and Business Transition.

## Advanced Benefit Plan Program:

**the BIG COMPANY advantage™**  
[www.bigcompanyadvantage.com](http://www.bigcompanyadvantage.com)

The BIG COMPANY advantage™ program is based on years of industry experience dealing with hundreds of clients. It is designed to help your company save time, money, and achieve your benefit plan goals by getting insurance companies to treat you like a BIG COMPANY!

- Employ big company strategies to decrease claims;
- Take the time to develop a long-term plan of action to implement these strategies.
- Companies that implement these strategies **save 10 to 25 percent** of their benefits plan costs.

- Recovery of assets
- Construction insolvency

**BuildingPoint** is a Trimble-supported network of select team members who have proven track records as supportive partners for the construction industry. BuildingPoint Canada has been selected by Trimble to support Canada's design-build-operate lifecycle for contractors and construction managers for solutions that merge cutting-edge innovation and practical requirements. BuildingPoint will solve today's wants and needs within the construction industry – and help you keep doing your job better.

### Construction layout and field solutions

**Field and mobility solutions** include applications and hardware for field layout. The equipment and tools capture data from the field and deliver it to the office for productivity, progress, and quality assurance.

**CrewSight** improves visibility into the costs of labour on building construction projects. It provides the ability to clearly see and analyze the actual hours crews are on site, what zones of the site crews are working and ensure that everyone on site has proper clearance to be there.

### 3D Laser scanning

**3D Laser scanning** is used by contractors and project managers for pre-construction as-builts, Building Information Modeling (BIM), virtual design and construction for needs such as quality control during construction or floor flatness analysis.

### Project Management

**Trimble ProjectSight** keeps contractors and subs in sync throughout the building process. Keeping building construction projects on track requires smart workflows and tight collaboration from start to finish.

**Prolog** provides cost control; streamlining the project information workflow and providing access to information from anywhere. Prolog Mobile enables all project participants to capture and retrieve project information on mobile devices that are affordable and available to everyone.

### Estimating

**Trimble GCEstimator Suite** incorporates best-of-breed estimating and takeoff solutions designed to increase efficiencies, win more work, and maximize the profitability of projects before, during and after construction. With a single knowledge-base that captures your company's estimating methods, your work will be delivered faster and with absolute confidence.

### VDC and Professional Services

**VDC Services** covers the BIM gamut – from 2D drawing comparison to 3D modeling and coordination; creating a BIM model from a laser scan point cloud; 3D quantity takeoff to full 5D estimating; 4D schedule optimization to owner presentation materials; and every step in-between. Call us to discuss the level of detail you need and we will arrange to meet your highest standards.

**Concrete Ontario**  
1 Prologis Blvd. #102B  
Mississauga, ON L5W 0G2

**Company History:**

Concrete Ontario (legally Ready Mixed Concrete Association of Ontario) was formed in 1959 to act in the best interest of Ontario's ready mixed concrete producers and the industry in general. It is fully funded by the membership (Active and Associate) and provides a broad range of services designed to benefit its members and the industry in general.

Concrete Ontario provides a world class plant certification to all its members. The Association is active in a number of areas of the industry including new concrete and admixture technologies, education and training of our clients, environmental stewardship and ongoing partnerships with many industry partners.

Concrete Ontario is the voice and resource of the concrete and construction industries across Ontario. Representing over 96% of all concrete production and manufacturing, Concrete Ontario continually promotes concrete's sustainable advantages and benefits to society. Concrete Ontario brings education, technologies, research and innovation to architects, designers, contractors and concrete companies.

**Vision**

Ready mixed concrete to be the preferred construction material.

**Mission**

To provide leadership and advocacy in business and markets, environmental and safety practices for the advancement of our industry.

## About eCompliance

eCompliance safety software is the leader for improving worker participation in high risk industries. The eCompliance mobile app connects workers with head office, creating a two-way conversation for safety leaders to make fast, fact-based decisions. Executives can gain an unrivaled view of safety risk across their company and data to support continuous organizational growth. With a mission to eliminate 1 million workplace incidents, eCompliance is the fastest growing safety software company in the world with hundreds of client success stories. eCompliance empowers organizations, safety leaders and the front-line workforce to improve EHS performance by connecting their people, places and equipment.

## Mission

Our mission is to eliminate 1 million workplace incidents by 2020. We plan to achieve this by:

- Increasing safety participation on the frontlines with the industry's best mobile app
- Exposing risk by providing executives with solid data to drive better, fact-based decisions

## Management Team

### Adrian Bartha, CEO

Adrian Bartha is the CEO of eCompliance and President of Alcumus North America. He joined the eCompliance team in 2012 after experiencing, first-hand, how a workplace incident affected a power and utilities company, which he led as a member of the Board of Directors. Previously, Adrian was an investment professional for a \$5 billion private equity firm investing in energy and infrastructure projects across North America. He was also a management consultant with McKinsey & Company serving Fortune 500 companies and government leaders.

## Services Offered

eCompliance provides cloud-based safety management software designed to help EHS leaders to simplify complex safety processes like audits and inspections, meet and maintain regulatory compliance, and increase frontline worker participation in safety activities.

- Quickly Eliminate Hazards – eCompliance users are empowered to take ownership over safety activities and create a culture of transparency and accountability around corrective actions, resulting in faster hazard identification.
- Easily Manage Compliance – EHS leaders who use eCompliance meet and maintain compliance with ISO 45001, ISO 9001, OSHA and COR without the administrative hassle and paper overload.
- Simplify Training Management – Ensuring employees are up to date on their training greatly affects their ability to participate at work. eCompliance simplifies and automates the employee training tracking process so EHS professionals can guarantee that everyone across the company is properly trained and ready for work.
- Encourage Worker Participation – The eCompliance mobile app puts safety into the palm of frontline workers' hands, enabling them to complete and submit inspections in the field for management to review and assign corrective actions.
- Predict and Prevent Incidents – An increasing amount of EHS leaders are looking to leverage the power of their data to improve safety outcomes. The Safety Intelligence platform makes it easy to discover new trends, visualize areas of risk and analyze safety performance at every level of the organization.

LEADERS IN BONDING AND CONSTRUCTION INSURANCE

**Your construction bids are here!**

### **Company History**

Open to small, medium and large companies, bids&tenders is a digital procurement platform that makes it easy to review and submit bids anytime, anywhere.

Brought to you by eSolutionsGroup, bids&tenders is used by more than 200 organizations throughout Ontario and across North America. We give you access to hundreds of daily procurement opportunities in all sectors. From all levels of municipal governments, to education and health institutions, police services, utilities and major buying groups, we have more construction bids on our platform than anywhere else.

bids&tenders is easy to set up, quick to learn, and follows the same clear process every time. Multiple prompts and guides along the way ensure that non-compliant bids cannot be posted. There is also no paperwork to print, bind and deliver by courier. And when you're a busy construction company, spending more time building and less time on administrative work means more profit!

Make better use of your workday: subscribe to bids&tenders now.

Goldman Sloan Nash and Haber LLP ("GSNH") is based in Toronto, Ontario. GSNH is a leading mid-size law firm with a strong focus on providing practical solutions to entrepreneurs and business clients across various industries.

Certain amendments to the *Construction Lien Act*, now the *Construction Act*, took effect on July 1, 2018 and on October 1, 2019. There are many significant changes that will impact the manner in which you conduct your construction business. The transition to the new Act will be complex and businesses are advised to be cautious during this period. Contact us for guidance through the transition.

The GSNH LLP construction law group has a depth and breadth of experience advising clients on all aspects of construction projects, from the early stages of planning, financing, structuring, documentation and procurement through completion. We cover all industry sectors.

**At NORCAT, our goal is to get you home safe at the end of the workday.**

Founded in 1995, NORCAT is a private, non-profit organization focused on developing and providing world-class programs, services, and resources to reduce injuries, save lives, and enhance productivity in the workplace. Over the past 25 years we have worked with our clients and partners to develop an array of training programs to serve the skilled labour industries both in Canada and around the world.

Our integrated training model is designed to give our clients choices that make sense for them. Based on your needs, we can provide quality training programs via the classroom, in-the-field, online, and using simulation and virtual reality/augmented reality techniques.

We are proud of our recognized ability to listen to our customers, develop relevant training content and curriculum, and implement training solutions that will have a meaningful and lasting impact.

**PETRELA, WINTER & ASSOCIATES**

12-14 Bruce Park Ave.  
Toronto, ON M4P 2S3  
P: 416 488-2522  
[www.petrelawinter.com](http://www.petrelawinter.com)

**Company History:**

Petrela, Winter & Associates was formed by Herbert Petrela in 1979 on the premise of providing construction contractors and developers with specialized broker service and advice that is not commonly available in the general insurance brokerage community. Today, over 40 years later, the firm remains true to its founding principle, focusing exclusively on serving contractors and developers of all shapes and sizes from coast to coast.

Petrela, Winter & Associates joined the Navacord Group in 2015, to form one of the largest commercial insurance brokerages in Canada, and a leader in construction bonding and insurance.

**Management:**

Gregory Petrela, President, Managing Partner  
Roy Ferreira, Vice President, Managing Partner

**Services Provided:**

The firm delivers superior results to contractors and developers in the areas of bonding, insurance, risk management and business advisory, strategic referrals and networking.

### **Pumpcrete Corporation**

# SiteDocs Safety Management Software

Workplace health and safety just got a whole lot easier

Introducing SiteDocs Paperless Safety Management Software.

Featuring a user friendly mobile app for workers on site, and a powerful web based administrative tool for safety managers.

SiteDocs makes every part of your health and safety program **easier, faster, and better**, and the best part is that you never have to touch a piece of paper again.

Getting COR certified? SiteDocs makes it easy to find all of your supporting documentation in a few clicks.

Since 2012, we've collected over 2 million signatures and helped over 600 companies **save time and money** by going paperless with their safety programs.

Learn how you can go paperless and book your demo today at [www.SiteDocs.com](http://www.SiteDocs.com).

*"I used to spend 5-6 tedious hours reviewing paperwork and completing my monthly tracker report. By going paperless with SiteDocs and using their Safety Inbox, I've been able to review my documents and create my report in less than an hour."*

**Marissa Igooe**  
Operations Coordinator, **SmartWatt**

*"Proof is in the pudding, we have aced 3 major audits: one with the Province of Manitoba, one with COR and another with OHSAS 18001. With SiteDocs, these were a breeze as all required information was instantly at the auditor's fingertips."*

**Technical Concrete Solutions Ltd.**  
**1341 Kerrisdale Boulevard**  
**Newmarket, Ontario, L3Y 8Z8**

### **About Us**

With over a decade of experience in the industry, the TCS team is proud to have worked with a large majority of the formwork contractors in Toronto. Our company offers a wide spectrum of project support from the point of conception to completion. We pride ourselves in a large variety of offerings, ranging from strategic planning and budget pricing, reshoring solutions, access scaffolding and reshoring rental, engineering drawings, and materials management. We also offer labour assistance, scaffolding erection, structural hoarding and overhead protection.

Our hard-working and dedicated team has earned a place among the top contractors in the province. We believe that with our qualified staff and Red Seal Journeyman Carpenters, you can be confident in the project support we provide to you and your clients.

TCS Construction is leading the way in infrastructure service and innovative concrete solutions. We have built our business on high standards of safety and a true quality product.

## Travelers Canada has contractors covered

There's no shortage of risks in today's construction industry. To protect your company, you need specialists who truly understand your evolving exposures. At Travelers Canada, our insurance and surety specialists offer a deep knowledge of construction. So whether you're bidding on a job, assessing your job site or poring over a big contract, we'll help protect you from unintended risks.

### Yes, we do that

Surety, P&C, Ocean Marine and more. If you've got a construction-related exposure, we've got a solution – or will work with your broker to develop customized coverage that meets your needs. Our total account solution is the Travelers Canada advantage. We provide uncompromised focus and dedication to deliver flexible and innovative solutions from bid to build, and beyond. We have a wide range of risk control services to reduce your risks and first-class claim handling to help keep your mind on your business and your operations moving even when the unexpected happens.

### Products for contractors and construction companies
